

*We will no longer be producing a printed Good Gifts Catalogue. It hasn't been an easy decision, but we felt the environmental damage made it hypocritical to be urging people to save trees, reduce plastic, cut waste and combat global warming, whilst we were producing the Catalogue. We tried to mitigate the damage by using recyclable materials, but it is not enough.*

*We know many of our Good Givers like to browse the Catalogue, so we have created this pdf that you can print out. For those that don't have access to a printer, and friends and relations can't help, the local library will be able to print it out.*
